

## **Isle of Wight 2009**

After a long and tiring journey heading for the Isle of Wight, year 5 and 6 burst through the doors Channel View Hotel. The first night was really fun, especially because it was games night, and you can't forget the delicious hot chocolate the hotel provided every night!

The whole week was amazing! Blackgang Chine was definitely the highlight of the week. The 'Brading, the Experience' was the second best experience of the holiday. Every person in there was made out of wax; some were famous, some were about great events in life e.g. the war, Victorians, tortures and much more.

**TALENT NIGHT!!** There were plenty of different acts from dancing to magic, there was even a snail alarm clock!. Everyone deserved to win.

Osbourne House was the biggest house we had ever seen. It was colossal! Queen Victoria's children even had their own play house and it was about the size of a normal house! It was called the Swiss Cottage. Each child of Queen Victoria had their own little garden, some of us were very jealous.

**Dinosaur Isle!** On the beach we all searched for fossils and the dinosaur expert identified all the fossils we found. Some children managed to find dinosaur and crocodile bones. Connor found a fossil of an ammonite. It was fascinating!

**Steam Railway.** We all enjoyed the ride on the steam train; we had so much fun doing strange but amusing things!

**Funniest Moment on the steam railway:**

- The single ladies song
- Making movies
- Fashion show
- Ellie the Elephant song
- Mrs Biffen, the amazing tour guide

**High lights of the week:**

- Snail Dance/talent show
- Blackganag Chine
- Story Teller
- Hot Chocolate!!
- The delicious evening meals
- Mrs Biffen's Beyonce dance
- The teachers' humour!
- The glamorous party night
- Girls screaming at 'Brading, the Experience'
- The victorious HMS Warrior

Everyone enjoyed the trip very much and wished we didn't have to leave.  
**THERE WAS NEVER A DULL MOMENT!!!!**
