

Isle of Wight 2009

Years five and six had been ecstatic for weeks before the Isle of Wight trip, although maybe our parents were even more excited because they were getting rid of us! As it was our first time away with our friends the atmosphere was very lively. The trip was so long and tiring everybody was desperate to get to the Channel View Hotel.

On the first night we had a delicious meal with starters, main course and dessert, everybody got quite full. Later we had a lot of fun playing our board games. Mrs Biffen moaned half the night because she didn't win very much! After every jam packed day we had a lovely hot chocolate and we would sit back and relax.

The funniest part was at the talent show when Mr MacRae did his dance with his snail alarm clock, BEEP BEEP! There were so many more hilarious moments like

- . Mrs Biffen's Beyonce dance
- . The talent show
- . The year six boys' strictly come dancing
- . The girls screaming at the wax works museum
- . The steam railway

There were quite a few highlights of the week too, like; Black Gang Chine when Ellessey got Mr MacRae to go down the water slide, the donkeys at Carisbrooke Castle, also when Mr MacRae wore his bright orange Hawaiian shirt, and the sand sculpture competition.

After an amazing week the time for us to go home had come too early. When we got back we were all happy to see our families but upset to leave a fun filled five days in the Isle of Wight. There was never a dull moment and we would all love to go back again.
