### **Class 3 Curriculum Autumn Term 2007**

This term our literacy work begins with the study of stories in familiar settings. The children will be looking at various settings on the interactive whiteboard and from DVDs, describing and exploring them through drama and discussion and eventually writing a number of stories. Later this term we shall be writing a range of reports and performing poetry. Children should ideally be reading a little each day at home. Spelling tests will take place on a Wednesday.

Our maths work continues to follow the renewed framework. By the end of the year, year 3 children are expected to know their 2, 3, 4, 5, 6 and 10 times tables along with the corresponding divisions. Children in year 2 should know their 2, 5 and 10 times tables. Regular testing of the times tables will take place on a Tuesday.

In science we will be experimenting with rocks and soils and keeping warm.

In history we will be looking at the Anglo-Saxons and in geography we will be investigating weather around the world.

In ICT we shall continue developing basic skills, concentrating on combining texts with pictures.

In RE we shall consider celebrations, harvest and Christmas.

In PE the children will enjoy gymnastics, invasion games and using the apparatus later in the term.

Please pop in if you have any questions.
